

Radiant Smiles Family Dental, PLLC

Consent Addendum – Bisphosphonates

Please check if you have taken or been treated with the following drugs for Osteoporosis, Bone Density, or Metastatic Bone Cancer:

- Etidronate (Dridonel)
- Alendronate (Fosamax)
- Pamidronate (Aredia)
- Ibandronate (Boniva)
- Zoledronate (Zometa)
- Risedronate (Actonel)
- Pamidronate I.V.
- Zoledronate I.V. (Reclast)
- Raloxifene (Evista)
- Denosumab (Xgeva, Prolia)
- Sunitinib (Sutent)
- Sorafenib (Nexavar)
- Bevacizumab (Avastin)
- Sirolimus (Rapamune)

- I have been treated for Metastatic Bone Cancer

- I do not take any of the above medications**

Any dental procedures performed including but not limited to extractions, endodontics, orthodontics and any surgical procedure may cause bone and/or infection complications including bone necrosis as a result of these medications.
